

# Prathamesh Kondawale

Software Developer

## Profile

Highly motivated and skilled software developer seeking an on-campus placement opportunity to contribute my expertise, passion, and problem-solving abilities in corporate world. Eager to apply my knowledge in programming, software development, and collaboration to drive innovation and deliver exceptional results.

## Work experience

June-2023

Jan-2023

### Internship

*MediBuddy, Bangalore*

- Collaborated with a team of experienced developers to design and develop backend solutions for a web application to the development and maintenance of RESTful APIs.
- Built Quick launch tool that improved Corporate launch TAT by 70% (NextJs, NestJs, Postgres) (Key Project) (Cross Pod).
- Worked on secret segregation for a service(opstools), which helps to increase the security, and easy rotations of secrets in AWS secret manager.
- Worked on property migration from one table to another in database, which increased the API performance.

## Education

Present

Nov-2020

Mar-2020

Mar-2018

### B-Tech - Information Technology

*NIT Kurukshetra - Haryana (India)*

CGPA: 8.4 (till 6th semester)
